Aurora Dynamics Inc.

Annual Business Report · Fiscal Year 2024

Executive Summary

Aurora Dynamics Inc. recorded steady progress in fiscal 2024, with consolidated revenue of USD 563 million, an 8.5% increase over the prior year. While global demand was uneven, the Company benefited from a diversified portfolio and a growing services business. Margins held firm despite input-cost pressure, and management took decisive action to strengthen the supply chain and reduce working-capital intensity. The year laid important groundwork for the growth investments now underway. This report is provided as a sample for illustrative purposes.

Key Performance Indicators

$563M	$73M	13.0%	+8.5%
Total Revenue	Net Profit	Net Margin	Revenue Growth

Chairman's Statement

Fiscal 2024 was a year of consolidation and preparation. Against a backdrop of softer industrial demand early in the year, our organisation demonstrated discipline and resilience. We protected margins, invested selectively, and positioned the business for the acceleration we anticipated in the following year. On behalf of the Board, I thank our employees, customers, and shareholders for their continued trust and partnership.

Financial Performance

Fiscal 2024 results reflect a recovery that strengthened through the year. A slower first quarter gave way to sequential improvement as new orders converted to revenue. Cost management and a favourable shift toward higher-margin services supported gross profit, which grew faster than revenue.

Income Statement Summary (USD millions)

Line Item	2024	2023	Change %
Revenue	563.0	519.0	+8.5%
Cost of Goods Sold	(341.0)	(319.0)	+6.9%

Aftermarket & Services	121.0	21.5%	+8.0%

Outlook for the Year Ahead

Entering the next fiscal year, Aurora Dynamics anticipated an improving demand environment and set the stage for double-digit growth. Management committed to scaling clean-energy capacity, deepening customer relationships, and maintaining a prudent balance sheet to fund expansion.

- Targeting revenue of USD 620–650 million in the coming fiscal year.
- Beginning construction of expanded production capacity.
- Sustaining R&D investment to support new product launches.
- Reducing net debt further through disciplined cash management.
